

BHANU PRATAP VERMA

📍 Etah, Uttar Pradesh 📞 +91-8869830615 ✉ Email [in LinkedIn](#)

Summary

Computer Science and Engineering graduate with a strong foundation in Data Analytics, Python, SQL, Excel, and Power BI. Hands-on experience in data cleaning, dashboard development, business reporting, and requirement analysis through academic projects and industry-based simulations. Passionate about solving business problems using data, collaborating in team environments, and delivering actionable insights. Adaptive learner with strong analytical, problem-solving, and communication skills.

Skills

Programming & Querying: SQL, Python

Data Visualization Tools: Microsoft Excel(VLOOKUP, HLOOKUP, XLOOKUP), Power BI, Power Query, DAX, Dashboard Development

Software Engineering Fundamentals: Object-Oriented Programming (OOPs), SDLC, Business Analysis, Requirement Gathering, Agile (Scrum)

Machine Learning & Python Libraries: Pandas, NumPy, Scikit-learn, Matplotlib, Seaborn, ML Fundamentals

Professional Skills: Problem Solving, Analytical Thinking, Team Collaboration, Communication

Experience

Machine Learning and Data Science Trainee

June 2024 – July 2024

Built a movie recommendation system using machine learning.

Tech Stack: Python, Pandas, NumPy, Scikit-learn

- Cleaned, validated, and transformed approximately 4,800 movie records to improve data quality and model performance.
- Performed feature engineering and preprocessing to improve recommendation accuracy.
- Worked with structured datasets to extract meaningful insights and support data-driven decision making.

Projects

E-commerce Customer Behavior Analysis | Python, Data Analysis

- Analyzed over 5,000 customer transaction records to identify purchasing trends and customer behavior.
- Cleaned, validated, and transformed raw datasets using Python, Pandas, and SQL.
- Built interactive Power BI dashboards to visualize KPIs, sales trends, customer segmentation, and business performance.
- Generated actionable insights that supported business decision-making through data visualization and reporting.

HR Analytics Dashboard | Power BI, Power Query, Excel

- Analyzed approximately 1,470 employee records to identify workforce trends and employee attrition.
- Performed data cleaning and transformation using Power Query to prepare accurate reporting datasets.
- Designed interactive Power BI dashboards using DAX measures to monitor HR KPIs and workforce metrics.
- Delivered business insights through dashboards that supported data-driven HR decisions.

Certifications

- **Deloitte Data Analytics Job Simulation - Forage (2025)** I Presented analytical insights for business decision making based on real-world scenarios.
- I gained hands-on experience in data cleaning, dashboard creation, and presenting insights using Excel and Tableau.

Education

Bachelor of Technology (Computer Science and Engineering)

GLA University, Mathura

Graduated: 2022 - 2026

CGPA: 6.94 / 10

Class XII (Intermediate)

Tulip Public School, Etah

Completed: 2020 - 2021

Percentage: 87.20%

Class X (High School)

Tulip Public School, Etah

Completed: 2018 - 2019

Percentage: 82.17%
